Central and Eastern European e|Dem and e|Gov Days 2024

eAgriculture

Call for Papers – Submission Deadline: March 31, 2024

Special Conference Theme

The CEEE|Gov Days 2024 are dedicated to all aspects of Public Sector ICT, however, every year a special topic is chosen, which also dominates keynotes and panel discussion. This year we decided that that it was time to address IT applications in agriculture, an oft-forgotten, yet crucial part in present-day farming. We would identify two main areas:

- The usage of eGov services in agriculture to ensure compliance with government (EU) grant schemes, sustainability goals and food security.
- The usage of IT in promoting a more resource-efficient and healthy agriculture, such as Smart Farming to, for instance, minimize the usage of pesticides or Precision Farming to precisely adapt farming methods to real-time needs. This also includes highly computerized farming concepts, such as urban farming.

The conference addresses public sector practitioners and policy makers, industry professionals and academia alike. The disciplines covered are primarily information sciences, law and administrative science, political science, sociology and economics. Theoretical and empirical contributions are equally welcome. We especially encourage submissions addressing the European Union in general, the Danube Region, the Balkans and Eastern Europe. Beyond the general theme, **papers are solicited in all areas of applying ICT to the Public Sector**. The conference will particularly focus on, but not limit itself to, the following topics:

- Electronic Administration services both back office and in communication with the citizen,
- Identity management for individuals,
- Privacy and data protection (including Cyber Security),
- eDemocracy on all levels,
- The role of the internet in revolutions and in transition processes,
- Transparency and anti-corruption,
- eTools to help establish a European public space,
- Open Data,
- Public transport and public organization of mobility
- Legal aspects of eGovernment and eDemocracy,
- Economic and social impact of eGovernment and eDemocracy,
- Enabling the Digital Single Market

The conference language will be English only. Papers will be subjected to a double-blind review process and published at ACM ICPS.

Organisers

- Austrian Computer Society (OCG)
- Information Society Development Institute, Chișinău (ISDI)
- Ludovika University of Public Service, Budapest (NKE)
- National University of Political Studies and Public Administration, Bucharest (SNSPA)
- University of Applied Sciences Upper Austria, Linz (FHOÖ)
- University of Economics and Business, Vienna (WU)

Timeline and organisation

Paper submission: March 31, 2024, please use the format provided on the conference web page

Reviews out: May 15, 2024

Rights transfer: June 15, 2024

Final paper submission: July 31, 2024

Conference: September 12-13, 2024

In order to ensure timely publication, **absolutely no extensions** will be granted.

Organisation and Contact

Please submit your abstracts/papers to ceeegovdays@ocg.at

A template will be made available for the paper preparation and can be found on the website of the conference.
